the SPRING FASHION issue

Fashion anticipates and elegance is a state of mind
a mirror of the time in which we live a translation
of the future and should never be static.

ST ET LE

Fashion is really about sensuality how a woman feels on the inside in the women used suits with exaggerated shoulders and waists to make a strong impression women are now more comfortable with themselves and their bodies they no longer feel the need to hide behind their clothes.

While clothes may not make the woman they certainly have a strong effect on her self confidence which I believe does make the woman.

Fashion is so close in revealing a person's inner feelings and everybody seems to hate to lay claim to vanity so people tend to push it away it's really too close to the quick of the soul.

Just around the corner in every woman's mind is a lovely dress,
a wonderful suit or entire costume which will make an enchanting new creature of her.

Women think of all colors except the absence of color
I have said that black has it all white too their beauty is absolute it is the perfect harmony.

be you tiful

Clothes and jewellery should be
startling individual when you see a
woman in my clothes you want to
know more about them to me that
is what distinguishes good designers
from bad designers.
